

# HAWKES GROUP

CIVIL ENGINEERING

Hawkes has a great reputation amongst its customers for delivering all types of roads and sewers projects. Projects are executed and delivered to the highest standard in all aspects due to our highly experienced operatives and dedicated staff. We work closely with our customers and local authorities. We have established excellent relationship and maintained in ensuring roads and sewers projects achieve the most viable approach including 278 works leading onto new sites.

Hawkes can deliver sizeable sections of projects to tight deadlines often with a number of different sections of the project running at the same time due to an experienced management infrastructure in place supported by a large number of operatives and plant.

Hawkes aims to maintain a high level of customer satisfaction by delivering reliable, high quality, cost effective products and services within agreed time frames. This allows us to reward stakeholders for their investment and our employees for their efforts. It also means we can support future operations and company growth and provide a stable and enjoyable workplace for the entire team.

We are committed to ongoing and continuous improvement and have implemented an integrated Management Systems.

Compliance and improvement is monitored by process measures and internal audits and is maintained by the timely implementation of preventive and corrective actions.

Meeting these standards is the responsibility of the entire team. We are committed to working with all stakeholders to support effective operation of our Quality and Environmental Management System, the achievement of goals and specific Quality and Environmental Objectives.

## RECYCLING

We aim to recycle 85% of waste that comes from demolition site saving it from reaching landfills

We provide range of recycled products that includes:

- MOT Type 1 Graded Concrete
- 6F2 Graded Concrete
- 6F2 Hardcore
- Screened Topsoil

All recycled materials are delivered on our fleet of lorries at requested locations, to suit our customers.

A focus on Health & Safety is key as we look to minimise or eliminate risk. We are proud to have been instrumental in driving up standards across the industry and of making it central to our mission.
